Welcome to Wine Pilot

Predictions of the wines *you* will enjoy, learned from your own palate.

1. Scan a wine

A bottle label, a restaurant wine list or a store shelf.

2. Get your predicted rating

88

How much *you* are likely to enjoy it, out of 100, and why.

3. Rate it after tasting

Every rating teaches Wine Pilot more about your taste.

The more you rate, the better your predictions get.

New to wine? At setup, choose **“I’m still learning”** and answer five quick food questions to get started.

EVERYTHING IS IN THE BOTTOM BAR

History	Scan	Profile
Your wines	Discover a wine	Your palate

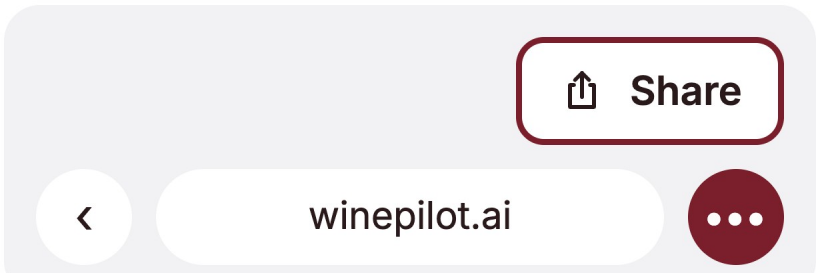

Predictions are about your enjoyment — not critic scores.

Put it on your Home Screen

Open Wine Pilot with one tap, like any other app. Nothing to download.

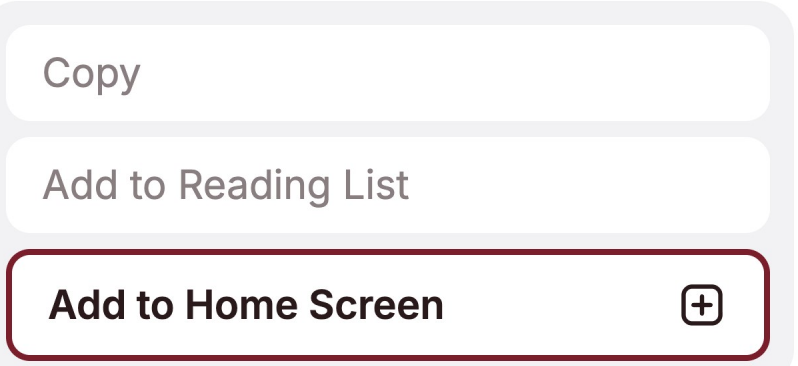

1 Open winepilot.ai in Safari

Tap ••• next to the address, then **Share**.

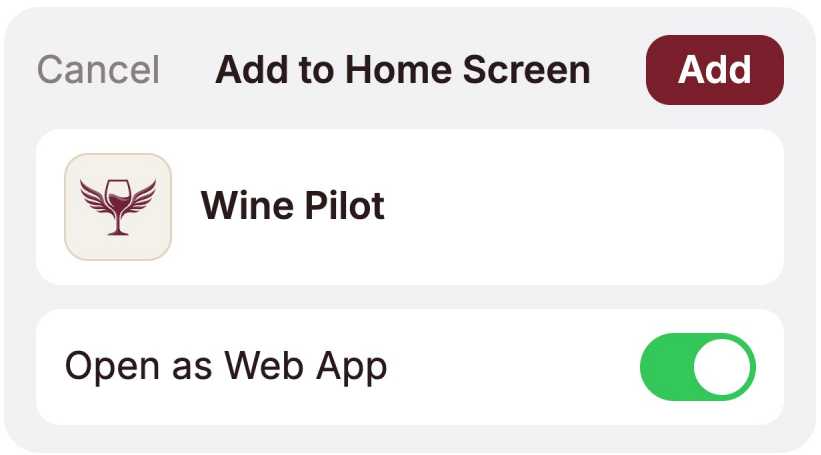

2 Tap Add to Home Screen

Scroll the list. Not there? Tap **View More**.

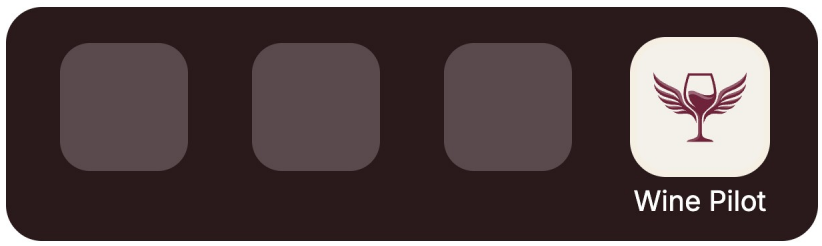

3 Tap Add

Leave **Open as Web App** turned on.

4 Open it and sign in once

The Home Screen app keeps its own sign-in, separate from Safari.

Older iPhone? On iOS 18 or earlier, Share is the square-and-arrow button in Safari's toolbar.

Using Chrome? Tap Share in the address bar, then Add to Home Screen.

Stay signed in until you choose Sign out on your Profile.

Scan a single bottle

Four taps from label to prediction.

1

Tap Scan

Then choose **Single Bottle**.

- **Single Bottle**
- Restaurant Menu
- Retail Shelf

2

Add a photo

Take a photo or **Choose from photo library**.

3

Check what we read

Tap **Find wines in this photo**, then check the details.

Producer	**Printed**
Grape	**Printed or inferred**
Region · Vintage	**Printed**

4

Get your prediction

Tap **Analyze & Predict Fit**.

88 Predicted rating
plus why it suits you

TIPS

Fill the frame with the label.

Avoid glare and shadows.

Every scan is saved to History. A private thumbnail is optional.

Wine lists & store shelves

Compare several wines at once and see which suits you best.

1 Choose Restaurant Menu or Retail Shelf

Restaurant Menu | Retail Shelf

2 Pick what you're in the mood for

Reds | Whites | Rosé | Sparkling

Optional request, e.g. *"dry Italian whites"*

3 Photograph the page or shelf

Up to 8 matching wines are ticked for you. Untick any you don't want.

4 Tap Predict ratings & explain why

1.	Your best match	$58	91
2.	A strong second choice	$44	86
3.	Less your style	$39	74

Ranked best fit first, with printed prices — usually in 10–15 seconds.

Reading your prediction

What each part of the result card tells you.

1. **Predicted rating.** How much *you* will likely enjoy it, out of 100.
2. **Confidence.** Rises as you rate more wines. Under 5 rated wines it stays Low.
3. **Headline.** Why it suits you — or doesn't.
4. **Vintage note.** Only for regions and years in our sourced table. Never from AI memory.
5. **Inferred details.** Labeled whenever a fact wasn't printed on the label.
6. **More details.** Full analysis, comparison with wines you've rated, tasting notes and when to drink.
7. **Caveats.** What the prediction couldn't know.

Winemaker notes

Facts from the winery itself, for your exact vintage.

1 Tap Look up winemaker notes

Below any prediction. Wine Pilot searches the winery's own pages, usually in about 10 seconds.

Look up winemaker notes

2 See what the winery confirmed

Confirmed for 2019

Blend	90% Cabernet Sauvignon, 10% Merlot
Oak	18 months French oak, 40% new
Alcohol	14.5%

Source: the winery's technical sheet

3 Update your prediction, if you like

Update prediction with these facts

Nothing changes unless you choose to update.

Only the winery's own pages and technical sheets are used.

A confirmed blend can unlock the vintage note for that grape.

Year not confirmed? Facts appear as "About this wine in general".

10 new look-ups a day. Saved notes are always there.

Your History

Every wine you scan is saved here automatically.

- **Considering** is your shopping list — wines you've scanned but not tasted.
- **Tasted** wines carry your own rating and notes.
- Open any card to see the prediction you got when you scanned it.

WHERE TO FIND IT

History | Scan | Profile

Rate it after tasting

Your ratings are what make predictions personal.

1

Open the wine

From History, or tap **Rate this Wine** after a scan.

2

Give a score

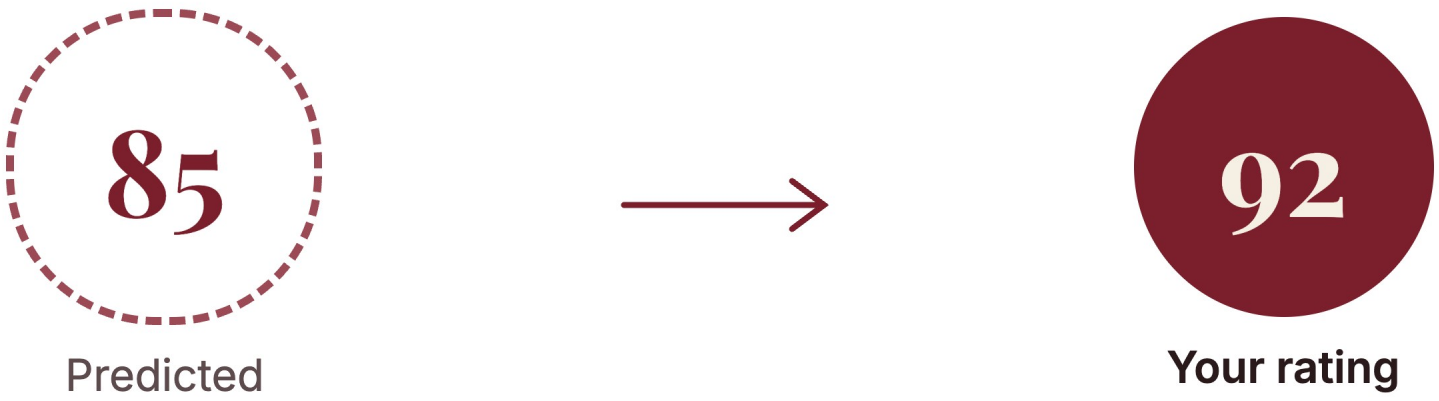

Out of 100 — how much *you* enjoyed it.

3

Add notes

Type them, or tap the microphone and dictate.

PREDICTED VS. YOUR RATING

Considering becomes Tasted

Each rating becomes a comparison for future predictions of similar wines.

Low scores help too. They teach Wine Pilot what you *don't* like.

Your palate profile

What Wine Pilot has learned about your taste.

YOUR TASTE IN A SENTENCE

You favor rich, fruit-forward reds with a plush texture, and tend to avoid earthy, austere styles.

STRUCTURE TRAITS

Body	**Full**	Oak	**Moderate**
Tannin	*Not enough data yet*	Acidity	*Not enough data yet*

A trait is set only once several of your wines agree.

YOUR OWN PREFERENCES

"I love plush Napa Cabernet; not a fan of very dry finishes."

HOW CONFIDENT PREDICTIONS CAN BE

Low
under 5 rated wines

Up to Medium
5–14 rated wines

High possible
15 or more

Profile **Account** is here too: change your password or sign-in email at any time.

Privacy & trust

What we keep, and what we promise not to pretend.

Photos stay private

Full scan images are deleted automatically. A small private thumbnail is kept with your wine by default; uncheck “Keep a private thumbnail” to skip it.

Your history is yours

Your wines, ratings and notes are private to your account.

No critic scores

We never show critic scores or pretend to have tasted the wine. Predictions are about your enjoyment.

Sourced, not guessed

Vintage notes and winemaker facts come from cited sources, never from the AI's memory. Inferred details are always labeled.

Ready? Tap Scan to start.
